**Subject:** FW: EPA Update – CFAC Site - EPA staff availability 10/5

Hi Caleb,

I received your contact information from Danielle Tribble with Senator Daines' office this morning. She mentioned that you are the Field Representative with Congressman Gianforte's office for areas of western Montana.

My name is Robert Moler and I am a community involvement coordinator with the Environmental Protection Agency's Superfund program in Montana. I am forwarding you a couple of messages about Superfund events that you may find of interest.

The message below is about a meeting tonight in Columbia Falls for the Columbia Falls Aluminum Company (CFAC) site. I am including Mike Cirian on this message. He is the EPA Remedial Project Manager (RPM) for the CFAC site.

I have also forwarded you an update about the Smurfit Stone Mill site in Frenchtown MT. Sara Sparks is the RPM for that site. We send out updates about these sites periodically and I hope I may be able to include you on future distributions?

Unfortunately, I will not be at either meeting tonight but I hope we may be able to meet soon. I am also including Jody Ostendorf who is our Congressional and Intergovernmental Liaison in our EPA Region 8 Office in Denver. Montana is a part of Region 8 for EPA.

Please let me know if you have any questions. Thank you.

**Subject:** EPA Update – CFAC Site - EPA staff availability 10/5

Good Afternoon,

You are receiving this message as an update about the Anaconda Aluminum Co Columbia Falls Reduction Plant site, also known as the Columbia Falls Aluminum Company (CFAC) site, in Columbia Falls, Montana.

EPA Public Availability: Mike Cirian, EPA Project Manager, and Susan Griffin, EPA Toxicologist, are planning to attend the Community Liaison Panel Meeting this week for the CFAC site:

- Thursday, October 5, 2017 @ 6 pm
- NVH Tea Kettle Community Room; 235 Nucleus Avenue; Columbia Falls MT

EPA staff will provide updates about the CFAC site and the human health risk assessment and be available to address community questions and concerns.

Please share this information with other interested people. If you would like to receive these emails directly, please send an email to [moler.robert@epa.gov](mailto:moler.robert@epa.gov). If you do not want to receive these updates, please respond to this email with "REMOVE" in the subject line of the email.
